

MedScope's Cellular Medical Alert System

will contact our 24-hour monitoring center without the need for a phone line or a cell phone! Previously, our Medical Alarms required a phone line to operate properly. We are now able to "cut the cord", eliminating the concern regarding telephone service.

Simply plug the system into any electric outlet and you're ready to go!

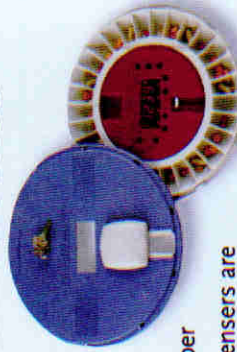

The cellular capability is completely built into our Medical Alert System, allowing emergency calls to be made over MedScope's cellular network.

Our monitored medication dispenser

helps you avoid unsafe medication errors by dispensing only the proper dose at the proper time. MedScope's dispensers are monitored by our operators 24 hours per day to help keep you on track. They will also notify family members or caregivers if you should miss your dose. MedScope Medication Dispensers will post all activity to a private website for viewing.

Medication dispensers are small and lightweight. Since the medication is "sealed" in each bin, pills will never shift. Bins are ramped for easy pill removal and there are no cups to jam. With its 72 hour battery back-up, it can be taken anywhere.

Our Medical Alert System

allows immediate access to emergency help at the touch of a button, 24 hours a day, 7 days a week. It is the most effective system which allows you, or a loved one, to remain safely in the comfort of your own home.

How does our Medical Alert System work?

Simply press the button to speak with our highly trained, friendly operators,

right through your MedScope System. We will assess your emergency, dispatch the appropriate help, and notify anyone you choose.

Why trust MedScope?

You need to be sure your call goes through, the first time, every time. Reliable equipment, superior monitoring and years of experience have allowed MedScope to become the most trusted name in the Medical Alarm industry. Our monitoring centers are always fully staffed. Your call will never go unanswered. Operators will respond to your emergency within seconds.

What is included with your subscription?

- All equipment is loaned free of charge!
- Equipment is shipped free of charge!
- 24 hour monitoring!
- No long-term contracts to sign—30 day month-to-month agreement!
- Waterproof emergency button is available in either pendant or wristband style!
- Free, unlimited use of our Emergency Medical Data Service!
- No hidden fees!
- 24 hour customer assistance!

Emergency Medical Data Service

If you need Emergency Room care, MedScope takes care of you there too! Compile your medical profile by simply completing the secure form on our website. Print out as many ID cards as you need. By showing your ID card, Emergency Room physicians will be able to access your information instantly.

Reduce medical errors

Proper treatment can only be given with the knowledge of a person's medical history. Often, appropriate treatment is delayed due to uncertainty regarding a patient's physical condition. MedScope's Emergency Medical Data Service:

- Provides instant access to your medical information at all times
- Helps to avoid negative drug interaction.
- Alerts doctors to your drug allergies.
- Allows faster, more accurate treatment.

Call today to subscribe and start enjoying the assurance that you can remain safely in the comfort & convenience of your own home.
